EXECUTIVE BRIEF

Brandon Micci

Enterprise AI & Data Leadership

SUMMARY

AI strategy and data executive with **17+ years** architecting enterprise AI initiatives, building AI Centers of Excellence, and scaling data and analytics capabilities across Fortune 500 organizations, with **$50M+** in documented savings. Most recently **Head of AI Strategy & Business Transformation at JPMorgan Chase** (Feb 2024 – Mar 2026), owning strategy, investment, and delivery for the **$15M+ annual AI portfolio** across merchant services, client servicing, client onboarding, and global call centers. Operating scope spans enterprise strategy, platforms, governance and model risk, and end-to-end delivery.

ENTERPRISE OPERATING LEADERSHIP

- **Enterprise AI & Data Strategy:** Board-level vision turned into a prioritized, fundable portfolio, with multi-year transformation roadmaps presented to the Executive Committee and senior stakeholders.
- **Platforms & Operating Models:** Reusable AI platforms (shared APIs, agent patterns, evaluation harnesses) and future-state operating models spanning people, process, technology, data, and controls.
- **Governance, Risk & Responsible AI:** Established the Payments AI Center of Excellence and model risk management framework across 30+ production AI/ML use cases in a regulated environment.
- **Talent & Adoption at Scale:** Built 50+ FTE organizations and grew analyst communities of practice from 2,500 to more than 30,000 users.

SIGNATURE OUTCOMES

$50M+
Documented savings across Fortune 500 programs

$30M
Revenue target for an AI/IoT practice built from zero at Capgemini, generating $9.8M in qualified pipeline

27,000+ users
On an enterprise LLM assistant, cutting handle time by up to ~40% in targeted servicing workflows

250% ROI
IoT program scaled to $20M+ annual savings at a major U.S. airline

$22M+
Projected annualized savings at JPMorgan Payments

30,000+ users
Analytics community of practice

REPRESENTATIVE ENGAGEMENTS

- **Global Bank (Payments):** Owned the end-to-end AI portfolio, strategy through delivery. Scaled the enterprise LLM assistant to 27,000+ employees on a multi-repository RAG platform spanning 12+ knowledge sources, and deployed 30+ AI/ML use cases into production.
- **Top-5 National Health Insurer (via EY):** Helped win a **$400MM, 10-year** digital transformation engagement covering legacy modernization, enterprise data platform buildout, and AI-powered fraud analytics.
- **Major U.S. Airline:** Launched the IoT/AI operations program that delivered 250% ROI in six months and scaled across fuel, baggage, and de-icing operations on an AWS platform.
