\$400M+

Business Impact Delivered

\$22M+

AI-Driven Savings (JPMorgan)

30,000+

Enterprise Analytics Users

17+

Years of Leadership

Brandon Micci is a senior AI Strategy and Business Transformation executive with 17+ years leading enterprise-wide AI initiatives, data platform modernization, and digital transformation across Fortune 500 financial services, consulting, and technology organizations. He specializes in building AI Centers of Excellence from the ground up, translating Generative AI, Agentic AI, and LLM capabilities into measurable operational outcomes, and securing C-suite sponsorship for transformational programs.

Brandon combines deep technical fluency with executive-level business acumen — equally comfortable presenting a multi-year AI roadmap to a CIO and COO as he is architecting the governance and operating model that makes it succeed.

CAREER HIGHLIGHTS

J.P. Morgan Chase

2024 – Present

Head of AI Strategy & Business Transformation

Leads AI product delivery and strategy across Payments Operations. Owns \$15M+ P&L, responsible AI governance for 30+ production models, and enterprise AI platform serving 27,000+ employees.

Capgemini

2022 – 2024

Senior Director, Head of AI/IoT & Emerging Technology Practice

Built AI/IoT practice from zero to \$30M P&L, leading 30+ architects and data scientists serving Fortune 50 clients across pricing, margin optimization, and revenue targets.

Ernst & Young (EY)

2021 – 2022

Senior Manager, AI/ML Forensic Analytics & Technology

Secured and led \$400MM 10-year digital transformation engagement for a Top-5 national health insurer, spanning legacy modernization through AI/ML-powered fraud analytics.

Southwest Airlines

2019 – 2020

Head of Digital Innovation & IoT

Built Digital Innovation & IoT organization reporting to CIO. IoT Fuel Savings initiative delivered 250% ROI in 6 months and \$20M+ in annual savings across 20 stations.

Citigroup

2017 – 2019

Vice President, Global Infrastructure Transformation

Led global transformation programs across LATAM, NAM, EMEA, and APAC, managing 500+ engineers to 98% uptime worldwide and 200% cloud adoption acceleration.

Capital One

2015 – 2017

Manager, Big Data & Analytics COE

Built enterprise analytics platform from zero to 30,000+ users — the largest evangelical Tableau community globally — redefining Capital One's data-driven culture.

Earlier Career | Booz Allen Hamilton & PwC

2008 – 2015

Data analytics consulting across federal and commercial sectors; enterprise analytics strategy and Business Transformation advisory.
