PROFESSIONAL EXPERIENCE

JPMorgan Chase, Plano, TX Feb 2024 – Mar 2026

Head of AI Strategy & Business Transformation

Led AI strategy and business transformation across JPMorgan Payments, spanning merchant services, client servicing, client onboarding, and global call centers. Owned end-to-end AI product delivery, the \$15M+ annual AI portfolio, governance, and enterprise scaling.

- Delivered \$22M+ in annualized savings through LLM-powered workflow automation, intelligent routing, and accelerated knowledge retrieval, cutting handle time ~40% in the highest-volume servicing workflow.
- Directed the reusable AI platform strategy spanning shared APIs, services, agent patterns, evaluation harnesses, and prompt playbooks, scaling the enterprise LLM Assistant to 27,000+ employees through a multi-repository RAG system across 12+ knowledge sources.
- Deployed 30+ AI/ML use cases into production spanning LLM/RAG assistants, call transcription and sentiment analysis, automated analytics, and end-to-end workflow automation.
- Established the Payments AI Center of Excellence and model risk management framework, ensuring regulatory compliance across 30+ AI/ML use cases; presented the multi-year transformation roadmap to the Executive Committee and senior stakeholders.
- Designed the future-state AI operating model for JPMorgan Payments: a multi-year transformation program spanning people, process, technology, data, and controls, defining role decomposition, decision rights, handoffs, and control points with Responsible AI embedded.
- Drove enterprise AI adoption through executive storytelling, KPI dashboards, manager enablement, and analyst communities of practice, turning technical work into board-level outcomes.

Career Break (Family Caregiving), Dallas, TX Jun 2022 – Feb 2024

Full-time caregiving for immediate family; completed independent study in emerging GenAI (LLMs, RAG) before returning in February 2024 to lead AI strategy and business transformation at JPMorgan Chase.

Capgemini, Dallas, TX Jan 2022 – Jun 2022

Senior Director, Head of AI/IoT & Emerging Technology Practice

Recruited from EY to build and commercialize a new AI/IoT practice within the Intelligent Industry portfolio. Owned solution development, platform buildout, and go-to-market strategy for Fortune 50 pursuits; role eliminated in mid-2022 practice restructuring after the build phase completed.

- Built the practice's go-to-market strategy and business plan targeting \$30M in revenue — defining service offerings, pricing, and positioning across insurance and industrial verticals.

- Generated \$9.8M in qualified pipeline through solution commercialization and pursuit leadership with matrixed delivery teams.
- Architected telematics and AI-driven risk analytics POC for Fortune 50 insurance pursuits, demonstrating real-time predictive analytics for loss mitigation.
- Extended the Industry 4.0 IoT platform connecting 1,000+ devices across telematics, smart buildings, wearables, and industrial equipment with unified AI analytics.

Ernst & Young (EY), Dallas, TX

Feb 2021 – Jan 2022

Senior Manager, AI/ML Forensic Analytics & Technology

Scaled AI/ML & Data Science strategy within Forensics Practice. Regional Leader and SME advising engagements across Financial Services, Life Sciences, and Energy sectors.

- Helped win a \$400MM, 10-year digital transformation engagement with a Top-5 national health insurer, designing the phased roadmap from legacy platform modernization through enterprise data platform buildout to AI/ML-powered fraud analytics.
- Championed Analytics-as-a-Service platform enhancements and go-to-market strategy, contributing to \$25MM+ in annual recurring revenue.
- Pioneered ESG analytics prototype for Fortune 50 Oil & Gas sector, driving \$6M+ in new revenue; led DOJ/FCPA compliance monitoring for healthcare client.

Southwest Airlines, Dallas, TX

Feb 2019 – Dec 2020

Head of Digital Innovation & IoT (Promoted 2020) / Manager, Data Enablement & Analytics COE (2019)

Promoted to newly created role reporting directly to CIO. Built and led Innovation Team driving digital transformation leveraging IoT, AI, and Edge Computing. Managed \$25M technology budget and cross-functional team of 20+.

- Pioneered IoT Fuel Savings initiative delivering 250% ROI in 6 months; scaled to 20 stations generating \$20M+ annual savings.
- Built Southwest's first Data Enablement & Analytics COE, driving 40% adoption increase in Tableau/Alteryx across 2,500+ users.
- Architected Tier 1 Production Data Environment meeting Tier-1 availability and disaster-recovery targets for critical real-time operations, implementing secure data isolation and access controls.

Citigroup, Irving, TX

Nov 2017 – Feb 2019

Vice President, Global Infrastructure Transformation

Led global infrastructure transformation and service quality programs across LATAM, NAM, EMEA, and APAC regions, matrixed across global CTOs while indirectly managing 500+ engineers worldwide. Drove platform modernization, cloud acceleration, and DevOps transformation across mission-critical banking systems.

- Architected global telemetry platform and service improvement program eliminating weekly Sev1 outages, accelerating cloud adoption by 200% and eliminating recurring Sev1 outages worldwide.
- Led organizational change management for DevOps transformation across 500+ engineers, establishing enterprise-standard CI/CD practices.

Capital One, Richmond, VA / Plano, TX

Jan 2015 – Nov 2017

Manager, Big Data & Analytics COE (Promoted to Manager 2016) / Enterprise Risk Analytics Leader (2015)

Established and led Capital One's Tableau & Big Data Center of Excellence. Built Risk & Analytics organization for Auto Finance & Home Loans. Defined enterprise data strategy and analytics operating model adopted across multiple business lines.

- Built an enterprise analytics community of practice, scaling enterprise adoption past 30,000 users.
- Led enterprise-wide platform rationalization, decommissioning 2,000+ legacy dashboards and reports, delivering \$8M annual savings.
- Pioneered NLP/OCR automation scanning official regulatory changes from government sources, auto-generating compliance testing scripts and increasing control coverage by 80%.

EARLIER EXPERIENCE

Booz Allen Hamilton, McLean, VA

Oct 2013 – Jan 2015

Senior Consultant, Lead Data Analyst

- Architected predictive analytics platform using ML, increasing anomaly detection rates 150% over manual review across federal client engagements.

PwC, McLean, VA

Aug 2009 – Oct 2013

Global Operations & Strategy Associate

- Delivered strategic insights to CFO and COO of Advisory, preparing Quarterly Operations Reviews for the Chairman and CFO.

EDUCATION

Bachelor of Arts, Business Administration — The George Washington University, School of Business, Washington, D.C.
